

Objective:

Aspiring cyber security professional. I am a self-motivated, driven individual with a passion for technology and securing vital assets.

Education:

Eleven Fifty Academy, Cyber Security, Online, July 2021

- 14-week immersive, full-time program for Cyber Security taught by industry professionals and designed to provide students with cutting-edge, real-world experience and training. Focused on industry-standard CompTIA Network+ and Security+ certifications, as well as over 100 hours on a virtual cyber range practicing incident response.

Eleven Fifty Academy, Software Development, Online, April 2021

- 12-week immersive, full-time Software Development course. Industry-guided, real-world, project-based learning, and 500+ hours of logged coding time and general information technology training

Competencies & Functional Skills:

Problem solving, written and verbal communication, team organization, time-management, self-motivation, technical skill acquisition, customer service.

Technical Skills:

Languages:	C#, ASP.NET, API development, MVC
CI/CD:	Agile, Scrum, Cit
Testing Tools:	Unit Testing
Office tools:	Slack, Trello, Microsoft Office
Web Technologies:	HTML, CSS, Bootstrap 5, APIs, responsive web-design
Cyber Security:	Wireshark, BurpSuite, NMAP, Linux

Eleven Fifty Academy Technical Projects:

Professional Portfolio

- Utilized HTML 5, CSS 3, and Bootstrap 5 to design and build a professional, mobile responsive portfolio to highlight my work

Homeschool NH - Two-Week Red Badge Final Project

- Designed and built a homeschool course ASP.NET Framework MVC application to meet the needs of new homeschoolers requiring course material. Implemented CRUD methods, joining tables, and foreign keys to build a database of queryable course material. Hosted website on Azure.

Top 10% of users on Try Hack Me

- Logged over 80 hours in learning rooms on Try Hack Me

- Completed topics including pentesting and analysis tools (NMAP, BurpSuite, Wireshark), and developed skills in multiple Linux distributions (Parrot, Kali, Ubuntu)

Portfolio of all projects from Eleven Fifty Software Development Course:
